Hannover Industrial Fairs 2009 Concludes Successfully in Mumbai

The four concurrent industrial trade fairs organized by Hannover Milano Fairs India Pvt. Ltd and Deutsche Messe AG Germany concluded here today with a high satisfaction level for most exhibitors.

Spread over two halls of the Bombay Exhibition Centre there were around 400 Exhibitors from both India and abroad from varied disciplines catering to the Logistics and Material Handling Industry, the Industrial Automation Industry, Motion Drive and Automation, Hydraulics, Pneumatics and Electro Mechanical Industry and the Energy Industry. 19 countries were represented in the 2 Halls. The biggest international participations came from Germany, Spain, Italy, Taiwan, China and Great Britain.

"It is dear, that to ignore such opportunities, as this MDA INDIA exhibition offers, is to miss out on one of this most exciting marketplaces in the Industrial World."

Ian Morrison President British Fluid Power Society, Great Britain

"Our experience in MDA INDIA is very good and I am sure also in the next years ASSOFLUID and the Italian companies will attend again this event, which assures a good quality of visitors, coming also from machine manufacturers."

Georgio Beretta, President ASSOFLUID, Italy

"Omron's participation in the Industrial Automation INDIA was quite satisfying. It gave us a good launch pad to release our new products."

S. Sriam, Business Development Manager, OMRON Automation Pvt Ltd, India

The event was formally inaugurated by Smt. Malini Shankar, IAS, Development Commissioner- Industries, Government of Maharashtra in the august presence of Mr. Aman Chadha, Chairman-Engineering Export Promotion Council, Mr. S. Rao, President-Fluid Power Society of India and Dr. A. Gruchow, Member of the Board Deutsche Messe AG

"By organizing these events in Mumbai we are expanding our presence in India and giving our exhibitors access to new visitor markets in the northern and western regions of the country." says Dr. Andreas Gruchow, Member of the Board at Deutsche Messe AG, Germany

The winners of the awards for best stall design were the Austrian company Seal Maker, the Italian Pavilion and the Indian company Gandhi Automation.

The centrepiece of Industrial Automation INDIA was the "Automation Kiosk". Under the patronage of the Fluid Power Society of India, leading manufacturers such as Bosch Rexroth India and Festo Controls demonstrated typical applications for modern

automation technologies. Participants had the opportunity to try out various types of application with the aid of practical examples. This experiment proved to be very successful and popular amongst the visitors who spent a lot of quality time at the kiosk.

The event also featured seminars on high technology themes like Logistics Solutions for Textile Exporters, Innovations and Challenges in Automotive Logistics, Solutions for Renewable Energy, Warehouse Management and Material Handling, Technologies from Eaton and the Panel Discussion on Manufacturing Beyond Recession – Challenges and Opportunities.

Next Event will be held again in Mumbai from 15th till 18th December 2010.
