

Press Release

Announcing five international trade fairs in Mumbai.

Hannover Milano Fairs India is glad to announce the fourth edition of their Indian fairs in Mumbai this year with a new topic Surface INDIA 2010. All the topics are done on the same pattern of the globally acclaimed Hannover Messe, Germany. These topics are now the leading fairs in their respective categories with the support from international as well as Indian participants. This year's attraction will be special theme pavilions in which all the leading companies will be showcasing their products and applications along with the opportunity of training sessions within the fair to the engineers and technocrats from the user industries. This kind of initiative is one of its kinds in the Indian exhibition industry. Similar kind of activity was started in 2009 in the form of "Automation Kiosk" jointly organized with FPSI for which it received an overwhelming response from the industry. Also the display from "Indian Profibus Association" was an attraction amongst the visitors in 2009.

The synergy from the five concurrent topics generated is highly beneficiary to all exhibitors and above all to the visitors.

	International Trade Fair for Motion, Drive and Automation
	International Trade Fair for Process and Production Automation and Industrial Building Automation
	International Trade Fair for Materials Handling Storage, Warehousing and Logistics Services

	International Trade for Energy Efficiency and Decentralised Renewable and Conventional Energies
	International Trade Fair for Surface Technology
